PURCHASE, **N.Y.** - **October 5**, **2021** - PepsiCo, Inc. (NASDAQ: PEP) today reported results for the third guarter 2021.

"We are pleased with our results for the third quarter as we delivered very strong net revenue growth while carefully navigating a dynamic and volatile supply chain and cost environment. Given our year-to-date performance, we now expect our full-year organic revenue to increase approximately 8 percent and core constant currency earnings per share to increase at least 11 percent," said Chairman and CEO Ramon Laguarta.

Laguarta continued, "Our strong year-to-date results demonstrate that the investments we have made towards becoming a Faster, Stronger, and Better company are working. To further complement and enhance our strategic framework, we recently introduced PepsiCo Positive (pep+), a fundamental end-to-end transformation of what we do and how we do it to create growth and shared value with sustainability and human capital at the center. We are extremely pleased with the progress we are making on our strategic agenda, and remain committed to the investments in our people, supply chain, plants, go-to-market systems, and digitization initiatives to build competitive advantages and win in the marketplace."

¹Please refer to the Glossary for the definitions of non-GAAP financial measures, including "Organic," "Core" and "Constant Currency," and to "Guidance and Outlook" for additional information regarding PepsiCo's full-year 2021 financial guidance. PepsiCo provides guidance on a non-GAAP basis as we cannot predict certain elements which are included in reported GAAP results, including the impact of foreign exchange and commodity mark-to-market net impacts. Please refer to PepsiCo's Quarterly Report on Form 10-Q for the 12 and 36 weeks ended September 4, 2021 (Q3 2021 Form 10-Q) filed with the SEC for additional information regarding PepsiCo's financial results.

⁽a) Excludes the impact of acquisitions and divestitures. In certain instances, the impact of organic volume growth on net revenue growth differs from the unit volume change due to product mix, nonconsolidated joint venture volume, and, for our beverage businesses, temporary timing differences between bottler case sales and concentrate shipments and equivalents (CSE). Our net revenue excludes nonconsolidated joint venture volume, and, for our franchise-owned beverage businesses, is based on CSE.

Organic revenue and core constant currency results are non-GAAP financial measures. Please refer to the reconciliation of GAAP and non-GAAP information in the attached exhibits and to the Glossary for definitions of "Organic," "Core" and "Constant Currency."

In certain instances, the impact of organic volume growth on net revenue growth differs from the unit volume change due to product mix, nonconsolidated joint venture volume, and, for our beverage businesses, temporary timing differences between bottler case sales and CSE. Our net revenue excludes nonconsolidated joint venture volume, and, for our franchise-owned beverage businesses, is based on CSE.

Guidance and Outlook

The Company provides guidance on a non-GAAP basis as we cannot predict certain elements which are

included in reported GAAP results, including the impact of foreign exchange translation and commodity

mark-to-market net impacts.

For fiscal year 2021, the Company now expects to deliver approximately 8 percent organic revenue

growth (versus our previous guidance of 6 percent), at least 11 percent core constant currency EPS

growth (versus our previous guidance of 11 percent), and at least 12 percent core EPS growth (versus

our previous guidance of 12 percent).

Consistent with its previous guidance for 2021, the Company continues to expect:

A core annual effective tax rate of approximately 21 percent; and

• Total cash returns to shareholders of approximately \$5.9 billion, comprised of dividends of

approximately \$5.8 billion and share repurchases of \$106 million. We completed our share

repurchase activity and do not expect to repurchase any additional shares for the balance of

2021.

In addition, the Company continues to expect a 1-percentage-point foreign exchange translation tailwind

to benefit reported net revenue and core EPS growth based on current market consensus rates.

This assumption and the guidance above imply 2021 core EPS of at least \$6.20, compared to 2020 core

EPS of \$5.52.

Prepared Management Remarks and Live Question and Answer Webcast

At approximately 6:30 a.m. (Eastern time) on October 5, 2021, the Company will post prepared

management remarks (in pdf format) of its third quarter 2021 results and business update, including its

outlook for 2021, at www.pepsico.com/investors. At 8:15 a.m. (Eastern time) on October 5, 2021, the

Company will host a live question and answer session with investors and financial analysts. Further

details will be accessible on the Company's website at www.pepsico.com/investors.

Non-GAAP Measures

In discussing financial results and guidance, the Company refers to the following measures which are not in accordance with U.S. Generally Accepted Accounting Principles (GAAP): organic revenue growth, core results and core constant currency results. We use these non-GAAP financial measures internally to make operating and strategic decisions, including the preparation of our annual operating plan, evaluation of our overall business performance and as a factor in determining compensation for certain employees. We believe presenting non-GAAP financial measures provides additional information to facilitate comparison of our historical operating results and trends in our underlying operating results and provides additional transparency on how we evaluate our business. We also believe presenting these measures allows investors to view our performance using the same measures that we use in evaluating our financial and business performance and trends.

We consider quantitative and qualitative factors in assessing whether to adjust for the impact of items that may be significant or that could affect an understanding of our ongoing financial and business performance or trends. Examples of items for which we may make adjustments include: amounts related to mark-to-market gains or losses (non-cash); charges related to restructuring plans; costs associated with mergers, acquisitions, divestitures and other structural changes; pension and retiree medical related items; charges or adjustments related to the enactment of new laws, rules or regulations, such as significant tax law changes; amounts related to the resolution of tax positions; tax benefits related to reorganizations of our operations; debt redemptions, cash tender or exchange offers; asset impairments (non-cash); and remeasurements of net monetary assets. See below for a description of adjustments to our U.S. GAAP financial measures included herein.

Non-GAAP information should be considered as supplemental in nature and is not meant to be considered in isolation or as a substitute for the related financial information prepared in accordance with U.S. GAAP. In addition, our non-GAAP financial measures may not be the same as or comparable to similar non-GAAP measures presented by other companies.

Glossary

We use the following definitions when referring to our non-GAAP financial measures, which may not be the same as or comparable to similar measures presented by other companies:

Beverage volume: Volume shipped to retailers and independent distributors from both PepsiCo and our independent bottlers.

Bottler case sales (BCS): Measure of physical beverage volume shipped to retailers and independent distributors from both PepsiCo and our independent bottlers.

Concentrate shipments and equivalents (CSE): Measure of our physical beverage volume shipments to independent bottlers.

Constant currency: Financial results assuming constant foreign currency exchange rates used for translation based on the rates in effect for the comparable prior-year period. In order to compute our constant currency results, we multiply or divide, as appropriate, our current-year U.S. dollar results by the current-year average foreign exchange rates and then multiply or divide, as appropriate, those amounts by the prior-year average foreign exchange rates.

Core: Core results are non-GAAP financial measures which exclude certain items from our historical results. For further information regarding these excluded items for the 12 and 36 weeks ended September 4, 2021 and September 5, 2020, refer to "Items Affecting Comparability" in "Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Q3 2021 Form 10-Q. For the periods presented, core results exclude the following items:

Mark-to-market net impact

Mark-to-market net gains and losses on commodity derivatives in corporate unallocated expenses. These gains and losses are subsequently reflected in division results when the divisions recognize the cost of the underlying commodity in operating profit.

Restructuring and impairment charges

Expenses related to the multi-year productivity plan publicly announced in 2019, which was expanded and extended through the end of 2026 to take advantage of additional opportunities within the initiatives of the plan.

Acquisition and divestiture-related charges

Acquisition and divestiture-related charges primarily include fair value adjustments to the acquired inventory included in the acquisition-date balance sheets, merger and integration charges and costs associated with divestitures. Merger and integration charges include liabilities to support socioeconomic programs in South Africa, closing costs, employee-related costs, changes in the fair value of contingent consideration, contract termination costs and other integration costs.

Pension-related settlement charge

In the year ended December 26, 2020, we recorded a pension settlement charge related to lump sum distributions exceeding the total of annual service and interest cost.

Tax expense related to the TCJ Act

Tax expense related to the TCJ Act reflects adjustments to the mandatory transition tax liability under the TCJ Act.

Effective net pricing: Reflects the year-over-year impact of discrete pricing actions, sales incentive activities and mix resulting from selling varying products in different package sizes and in different countries.

Organic revenue growth: A measure that adjusts for the impacts of foreign exchange translation, acquisitions and divestitures, and where applicable, the impact of the 53rd reporting week. Adjusting for acquisitions and divestitures reflects all mergers and acquisitions activity, including the impact, in the 36 weeks ended September 4, 2021, of an extra month of net revenue for our acquisitions of Pioneer Foods in our AMESA division and Be & Cheery in our APAC division as we aligned the reporting calendars of these acquisitions with those of our divisions, divestitures and other structural changes, including changes in ownership or control in consolidated subsidiaries and nonconsolidated equity investees. We believe organic revenue growth provides useful information in evaluating the results of our business because it excludes items that we believe are not indicative of ongoing performance or that we believe impact comparability with the prior year.

2021 guidance

Our 2021 organic revenue growth guidance excludes the impact of acquisitions, divestitures and other structural changes and foreign exchange translation. Our 2021 core effective tax rate guidance and 2021 core constant currency EPS guidance exclude the mark-to-market net impact included in corporate unallocated expenses and restructuring and impairment charges. Our 2021 core constant currency EPS growth guidance also excludes the impact of foreign exchange translation. We are unable to reconcile our full year projected 2021 organic revenue growth to our full year projected 2021 reported net revenue growth because we are unable to predict the 2021 impact of foreign exchange due to the unpredictability of future changes in foreign exchange rates and because we are unable to predict the occurrence or impact of any acquisitions, divestitures or other structural changes. We are also not able to reconcile our full year projected 2021 core effective tax rate to our full year projected 2021 reported effective tax rate and our full year projected 2021 core constant currency EPS growth to our full year projected 2021 reported EPS because we are unable to predict the 2021 impact of foreign exchange or the mark-to-market net impact on commodity derivatives due to the unpredictability of future changes in foreign exchange rates and commodity prices. Therefore, we are unable to provide a reconciliation of these measures.

⁽a) Adjustments primarily reflect Rockstar (PBNA), Pioneer Foods (AMESA), and Be & Cheery (APAC). The contribution from the acquisition of Rockstar reflects the incremental consolidated net revenue reported for Rockstar in excess of the net revenue we reported under our previous distribution arrangement.

Note – Amounts may not sum due to rounding.

⁽b) Organic revenue growth is a financial measure that is not in accordance with GAAP. See A-5 through A-6 further discussion.

⁽c) Excludes the impact of acquisitions and divestitures, including the impact, in the 36 weeks ended September 4, 2021, of an extra month of volume for our acquisitions of Pioneer Foods in our AMESA division and Be & Cheery in our APAC division as we aligned the reporting calendars of these acquisitions with those of our divisions. In certain instances, the impact of organic volume growth on net revenue growth differs from the unit volume change disclosed in the Summary Third-Quarter 2021 Performance and Summary Year-to-Date 2021 Performance tables on pages 2 and 3, respectively, due to product mix, nonconsolidated joint venture volume, and, for our beverage businesses, temporary timing differences between bottler case sales and CSE. Our net revenue excludes nonconsolidated joint venture volume, and, for our franchise-owned beverage businesses, is based on CSE.

Cautionary Statement

Statements in this communication that are "forward-looking statements," including our 2021 guidance and outlook, are based on currently available information, operating plans and projections about future events and trends. Terminology such as "aim," "anticipate," "believe," "drive," "estimate," "expect," "expressed confidence," "forecast," "future," "goal," "guidance," "intend," "may," "objective," "outlook," "plan," "position," "potential," "project," "seek," "should," "strategy," "target," "will" or similar statements or variations of such words and other similar expressions are intended to identify forward looking statements, although not all forward looking statements contain such terms. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from those predicted in such forward looking statements. Such risks and uncertainties include, but are not limited to: the impact of COVID-19; future demand for PepsiCo's products; damage to PepsiCo's reputation or brand image; issues or concerns with respect to product quality and safety; PepsiCo's ability to compete effectively; PepsiCo's ability to attract, develop and maintain a highly skilled and diverse workforce; water scarcity; changes in the retail landscape or in sales to any key customer; disruption of PepsiCo's supply chain, including cost inflation in raw materials, packaging and commodities; political or social conditions in the markets where PepsiCo's products are made, manufactured, distributed or sold; PepsiCo's ability to grow its business in developing and emerging markets; changes in economic conditions in the countries in which PepsiCo operates; future cyber incidents and other disruptions; failure to successfully complete or manage strategic transactions; PepsiCo's reliance on third-party service providers; climate change or measures to address climate change; strikes or work stoppages; failure to realize benefits from PepsiCo's productivity initiatives; deterioration in estimates and underlying assumptions regarding future performance that can result in an impairment charge; fluctuations or other changes in exchange rates; any downgrade or potential downgrade of PepsiCo's credit ratings; imposition or proposed imposition of new or increased taxes aimed at PepsiCo's products; imposition of limitations on the marketing or sale of PepsiCo's products; changes in laws and regulations related to the use or disposal of plastics or other packaging of PepsiCo's products; failure to comply with personal data protection and privacy laws; increase in income tax rates, changes in income tax laws or disagreements with tax authorities; failure to adequately protect PepsiCo's intellectual property rights or infringement on intellectual property rights of others; failure to comply with applicable laws and regulations; and potential liabilities and costs from litigation, claims, legal or regulatory proceedings, inquiries or investigations.

For additional information on these and other factors that could cause PepsiCo's actual results to materially differ from those set forth herein, please see PepsiCo's filings with the Securities and Exchange Commission, including its most recent annual report on Form 10-K and subsequent reports on Forms 10-Q and 8-K. Investors are cautioned not to place undue reliance on any such forward-looking statements, which speak only as of the date they are made. We undertake no obligation to update any forward looking statement, whether as a result of new information, future events or otherwise.
